

Type / Status : Core

Course Code : LISC 21454

Course Title : Information Technology Applications in Libraries

Learning Outcomes:

At the end of the course, students will be able to acquire the following skills and competencies

1.

-

Identify hardware components of a computer system and explain each in brief

-

Describe the landmarks in the history of computers and microprocessor development

-

Express input devices and their categories and explain output devices of a computer system and portray memory and storage devices

-

Handle different computer applications in libraries.

Course Content:

Introduction to computers, history, architecture, Input/Output devices, storage devices; Commercial and Open Source Software; Operating systems; Single and Multi user Systems; Introduction to Windows, Windows NT; Linux; Word Processing applications using Ms-Word ; Spread Sheet applications using Ms-Excel; Presentation using Ms-Power Point; Data Base Management Systems using Ms-Access or open office.

Methods of Teaching and Learning:

Lectures/ Tutorials/ Presentations/ Practical sessions/ Creative works/ library visits

Assessment Procedure

Methods of Evaluation

Allocation of marks

Examination

75%

Assignments/Performances

20%

Attendance

05%

Total

100%
