Abstract

An abstract of a maximum of 250 words, followed by a set of keywords.

It should highlight the key features of your manuscript. The abbreviations and jargon that might be unfamiliar to those outside of your discipline should be avoided. The abstract should be limited to one paragraph.

Keywords - leave one blank line after the abstract and indicate keywords. (3-5 words).
Keywords should clearly describe the subject matter of the paper.

Main Text

The full paper should involve at least the following major sections:

- Introduction: Explain the background of the study, the main research problem, and the motivation and purpose of the research.
- Literature Review: Provide a summarized and updated review of literature pertaining to the key arguments of study.

- Methodology: Specify the study design. Provide sufficient information to allow readers to understand how the investigation was conducted.
- Results and discussion: Present the major results and discuss the key points.
- Conclusions and Recommendation: State conclusions concisely and offer perspectives for future work.
- References: References should be in compliance with APA Method.
